

Christmas Chickens

Materials

- Clean bottle (old softdrink bottle is fine)
- Rubber glove
- Bicarbonate soda
- Vinegar
- Rubber band

Instructions

1. Place a few tablespoons of bi-carb into your rubber glove.
2. Fill your bottle $\frac{1}{4}$ of the way with vinegar.
3. Keeping your glove upside-down (to keep the bi-carb in the fingertips) secure the opening over the top of the bottle with a rubber band.
4. Keeping your glove upside-down (to keep the bi-carb in the fingertips) secure the opening over the top of the bottle with a rubber band.
5. Try drawing a chicken (or turkey) face on your glove and experiment with different amounts of bi-carb and vinegar.
