

Reindeers Toothpaste

Materials

- 2 tbsp warm water
- 1 tsp dry active yeast
- ½ cup 3% hydrogen peroxide
- Dishwashing liquid
- Food colouring
- Large tray, container or plastic tarp
- Clean, narrow-necked plastic bottle (750mL-1L)
- Safety glasses
- Rubber gloves
- Funnel

Instructions (outside experiment!)

1. Mix yeast and water and leave for 5 minutes.
2. Using safety gear, pour the hydrogen peroxide into the bottle.
3. Add a few squirts of dishwashing liquid and red & green food colouring.
4. Quickly pour the yeast solution into the bottle and stand clear!
