

PREPARE TO BLAST OFF....

LET STREET SCIENCE LAUNCH YOU INTO NATIONAL SCIENCE WEEK

**LAUNCH
EVENT**

FRIDAY AUG 12th 2022
5:30pm - 7:30pm EST

Join us from anywhere in Australia

- Forces & Flight LIVE Show
- Rocket Building Workshop
- REAL Scientists demonstrating REAL Rocket Science
- Includes a physical kit sent to your home to build and launch your own rockets!

INCLUDES A ROCKET KIT

Street Science logo and Inspiring Australia logo are also visible.

The countdown has begun for Street Science's launch into National Science week event.

Communities from around Australia are being asked to join Street Science on August 12th, for an exclusive online event to launch into National Science Week.

Participants of the event will be entertained by the team at Street Science; enjoying one of their award-winning shows, Forces & Flight, followed by a hands-on rocket building workshop, culminating in a massive, nationwide, simultaneous rocket launch.

The first release of tickets will be available from June 1st via the Street Science online store and will give participants access to an exclusive digital broadcast as well as their very own rocket building kit - complete with enough materials to build three rockets and launch each rocket at least 10 times. This is going to be epic!

"We are extremely excited to be partnering with Inspiring Australia to launch into this year's National Science Week. The team at Street Science are passionate scientists and educators who love engaging with children of all ages and the wider community, so the opportunity to take our passion and share it with people across Australia is amazing"

Steve Liddell, Founder of Street Science

About Street Science

Street Science is South East Queensland's premier science education provider. Founded in 2012 by Steven Liddell, a fully qualified science educator who has a passion for bringing science to life, Street Science make learning fun by offering exciting and engaging stage shows and workshops; taking them into schools and the community across Australia, with both face to face and digital offerings. Since winning 'Outstanding Small Business – Queensland' at the Telstra Business Awards in 2019, Street Science have also won a Gold Stevie for 'Innovation in Science and Technology' at the Asia Pacific International Stevie Awards 2021 and also took out the HSBC Award for Excellence in Business Adaption. Street Science were also recently named a 'Top 10 Student Engagement Service Provider Asia-Pacific Region' by Educational Insights Magazine, and were also named as 'Champion Educational Service' at the Australian Small Business Champion Awards 2021.

About National Science Week

National Science Week is Australia's annual celebration of science and technology. Running each year in August, it features more than 1000 events around Australia, including those delivered by universities, schools, research institutions, libraries, museums and science centres. These events attract a wide audience from children to adults, and science amateurs to professionals. Over one million people participate in science events across the nation.
