

CAPABILITY STATEMENT

AUSTRALIA'S #1 SCIENCE EDUCATION PROVIDER

Street Science is on a bold mission: to inspire the next generation of scientific problem-solvers through one million meaningful STEM engagements each year.

As Australia's leading science education provider, we bring high-energy, curriculum-aligned experiences to schools and communities across the country. With over 365,000 annual engagements already delivered, we're well on our way to reaching that goal.

AUSTRALIAN BUSINESS AWARDS
2019 WINNER

Our award-winning programs blend explosive demonstrations, hands-on learning, and theatrical flair to create unforgettable moments that spark curiosity and make STEM accessible, exciting, and seriously FUN for all students.

We don't just teach science—we ignite a lifelong passion for it.

CURRICULUM-ALIGNED SCHOOL INCURSIONS

Live stage shows and hands-on workshops that align with the Australian curriculum, making complex science concepts exciting and understandable.

DIGITAL EDUCATION RESOURCES

Interactive and engaging online content to extend our reach beyond the classroom.

SCHOOL PARTNERSHIP PROGRAM

Our government-subsidised school partnerships make it easier for schools to access high-quality, curriculum-aligned STEM experiences.

SPECIAL EVENTS & NATIONAL SCIENCE WEEK

Including our National Science Week stage show—custom-themed each year to align with the official national theme—which is set to reach over 21,000 students across Australia in August 2025.

WHAT WE DO

BUILDING AND SUPPORTING TEACHER CAPACITY

At Street Science, our goal is to empower teachers to deliver multiple, engaging science experiences that spark curiosity and give students the opportunity to fall in love with science.

We support schools with curriculum-aligned, outcome-focused content, while making science fun, hands-on, and accessible for students. Our programs are designed to build teacher confidence, enhance classroom delivery, and ensure science is taught with impact.

WHY PARTNER WITH US

> BOOKING & LESSON MAPPING SUPPORT

We work closely with teachers and Heads of Curriculum to streamline scheduling and maximise educational outcomes.

> CLASSROOM READY RESOURCES

Designed by educators for educators, our physical and digital resources—support learning and help maintain curiosity in the classroom.

> ONLINE LEARNING PLATFORM

Expand your school's capacity with access to engaging, high-quality digital and printed content—professionally developed and produced in our in-house studio.

> TEACHER PD & RESOURCE INTEGRATION

We offer PD and practical support to help teachers confidently deliver science content—while also assisting schools in transitioning from Version 8.4 to 9.0

“ Partnering with Street Science has transformed the way we teach STEM – boosting engagement, supporting teachers...a true game changer! ”

HEAD OF CURRICULUM, QLD

ONE MILLION STEM ENGAGEMENTS PER YEAR

OUR MISSION

OUR BOLD GOAL: One million annually. Street Science currently delivers over 365,000 STEM engagements each year.

ALREADY TRUSTED BY MORE THAN

50%

of SEQ schools and we're rapidly expanding our reach across Australia.

OUR IMPACT

365,000+

Total annual STEM engagements and growing fast.

185,000+

Students engaged annually in person

15,000+

School incursions delivered across QLD, NSW, VIC & NT since inception

480+

Hours of face-to-face teacher PD delivered since inception

30+

Regional and remote school communities reached in the last 12 months

We know that real-world change starts in the classroom. That's why our team works tirelessly to deliver science programs that are not just informative, but transformative.

JOIN US IN LIGHTING THE SPARK

Whether you're looking to strengthen STEM education, boost student engagement, or inspire future-ready learners, Street Science is your partner in purpose.

With your support, we can create a nation where every child experiences the joy of scientific discovery— and together, we'll empower the next generation of scientific problem-solvers to meet the challenges and opportunities of tomorrow.
